**Subject:** Do NOT Centene acquire OHP!

Dear Mr. Keeling, it is an outrage that Oregon residents are betrayed again! We were promised that OHP would be locally managed. I think THIS WILL BE THE FINAL FACTOR THAT PUSHES ME INTO LOSING ALL BELIEF IN GOVERNMENT. I read about issues all the time with promises broken. This is an outrage as OHP serves the most vulnerable and needy people in our state. This is not about profit, it is about our citizens deserving quality care and quality government decisions. Allowing Centene to buy FOR THE PURPOSE OF PROFIT, this medical business that serves some of our most needy demonstrates the complete absence of consideration for the people of this state. DO NOT ALLOW THIS TO HAPPEN! All our agencies are in dire need of honest restoration to rebuild trust between state agencies. I was told by Tom Diggendorfer of aging and disability that "it would take a death to get the state to act" on a DHS complaint. Well there have been many deaths, and he is right, state employees have it so well off that they have little regard for the citizens themselves. These offices are meant TO SERVE the people. They are public service jobs. Yet most people need to fight for any help at all. Selling this would amplify this for many who do not have advocates and those too elderly to understand. It is wrong!
