Subject: Trillium Community Health Plan comments

Please do not let this sale go through. Keep control in Oregon. We need to have local control. I am sure they will cut services or something so they can pay for their acquisition. NO MATTER WHAT THEY SAY NOW.

I just got into a Community Health Center in Lane County where I can see a GP. I have Medicare. A few years down the line, the Centene (?????) organization will most likely do something to destroy Trillium for Medicaid which will end these Health Centers.

I am sorry, but no way do I trust corporate America to do right by low income people.

I googled them and see they own many health plans.....bottom lines for big corps....\$\$\$\$

Thanks, Mitzi Linn, Eugene OR.
