Subject: RE: State announcement regarding Trump administration discontinuation of cost-sharing reduction payments

Please quit meddling. Just let these necessary reforms take place. We don't need another Cover Oregon debacle to happen. We can't afford it. Also it's not the "Trump Administration" it's "The office of President of the United States". Grow up, he won and now we all get to live with it. I have worked in the insurance industry for 12yrs. now, I am a foremost expert on Coordination of federal and state benefits. I volunteer hundreds of hours a year helping low income, disabled and senior citizens navigate the maze called healthcare. I do this work for passion not for money. My kids are the 6th generation of my family to live in Oregon and we are proud of that fact. The way the state manages healthcare is not something to be proud of unfortunately. Please let go of the reigns and give our President a chance to rescue Oregon's failed system. Good Day
