Subject: Increase in Rates

[You don't often get email from kristamac73@gmail.com. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

To whom it my concern, I'm very disappointed in knowing rates are going up significantly again next year and I'm losing my insurance provider who had the best options and allowed me to keep my current doctors. Our last year rates went up by 45%. This is ridiculous to ask for even more and offer even less. Why do I pay taxes? It doesn't seem like my tax dollars or healthcare dollars are being used wisely. Except to make certain companies and individuals richer. I am frustrated by the for profit healthcare system that apparently doesn't care about us.
