AGENDA

1. Explanation of sample rate sheet
2. Committee member input
 - Service units – Does it make sense to divide the dollar amounts by the number of service units reported? Is there a difference between anesthesia and non-anesthesia claims?
 - Modifiers – Is it feasible to build a rate sheet with only CPT codes with no modifiers? Payments would be based on this baseline rate and then adjusted based on the modifier the provider reports to the payer according to each payer's plan standards
 - Geography
 - CPI-U multiplier from May 2015 to May 2018: 1.06%
3. Other Issues
