Subject: CORRECTION SB 231

I saw too many zeros. \$1 BILLION (not trillion). Thank you. I apologize for my mistake.

Subject: RE: SB 231

For your discussion on defining "prominent" carrier, we suggests that a natural break occurs at \$1 Trillion in premium. As we indicated in meetings with Sen. Steiner Hayward as the bill was going through the process, additional reporting requirements are expensive. The fewer members a carrier has the higher the per member costs of compiling this information. Defining prominent carrier as a carrier with excess of \$1 Trillion in premium, we believe captures the spirit of this bill. Even dropping it to \$500 M reaches over half the market. We appreciate your consideration.
