

**Primary Care Spending Report
List of codes for 2019 Report - Updated August 2018**

The Primary Care Spending Report defines primary care based on the health care provider and what service is given. In other words, primary care in this report is defined by specific types of health care professionals who provide a specific set of services to patients. The definition of primary care also includes certain provider organizations and excludes specific health care settings.

The costs associated with services provided in hospitals and ambulatory surgical centers do not count toward primary care spending.

CPT Codes	Description
