To Oregon Prescription Drug Affordability Board

From: Leo De Guzman

Re: Inquiry about an HIV medication called Odefsey

To whom it may concern,

I would like to inquire about options, if there are any, to decrease copay on my HIV medication called Odefsey.

I am privately insured by Regence blue cross/blue shield bronze essential with a deductible of \$9000 and OOP max of \$10,600. I already am using Gilead copay assistance which provides \$7200 per year. Still to obtain the medication requires me to pay \$3400 which is a lot.

I read online that Odefsey is under affordability review by your board.

I would appreciate any help or information you can provide.

Sincerely,

Leo De Guzman
