

Individuals with Scientific or Medical Training - Survey Feedback

Purpose: This document presents feedback submitted through the 2026 survey for individuals with scientific or medical training. The table reproduces the substantive survey information provided by respondents. Survey responses reflect the experience and opinions of individual respondents and have not been independently verified by PDAB. Blank survey items are shown as “No response.”

Mounjaro (*tirzepatide*)

Primary professional role	Healthcare profession involved in patient care
Years of experience treating or studying this condition	More than 10 years
Practice setting	Outpatient clinic
Typical role of this drug treatment	First-line therapy
Patient population most commonly receiving this drug	Moderate
